Unusual Context

Design
14.05.2009 - 20.06.2009

Unusual Context brings together those design pieces that have made him renowned in Canada and in Europe, as well as his latest creations, most notably *Skid Row* which will be presented here exclusively, in limited edition, for the inauguration of the gallery.

Philippe Malouin's work combines, with a certain element of humor, both conceptual and functional language. As a keen observer of everyday objects and our daily lifestyle, he reinterprets, manipulates archetypes, and transforms materials from their traditional contexts. According to Philippe Malouin, this approach allows us to have "a different perception of – and interaction with – our environment.
