## Medical Heirlooms, Tamsin van Essen

Tamsin van Essen uses ceramics to explore the stigmatisation of illnesses, questioning the modern obsession of perfection and beauty. The Medical Heirlooms collection imitates physiological processes, encouraging voluntary 'mistakes', 'defects' and 'imperfections'. [www.nextlevelgalerie.com](http://www.nextlevelgalerie.com)

Tamsin van Essen以陶瓷探討疾病被標籤的情況，質問現代人沉迷於完美與美麗的行為。Medical Heirlooms系列模仿生理過程，鼓吹故意的「錯誤」、「缺陷」與「瑕疵」。 [www.nextlevelgalerie.com](http://www.nextlevelgalerie.com)
